Sharpak Healthcare offer a range of containers designed to meet the growing demands for the safe collection and disposal of general clinical waste.

All the containers in the range have been tested and certified in accordance with the provisions of the United Nations recommendations on the Transportation of Dangerous Goods, Chapter 9, UN3291 Clinical Waste, Unspecified, NOS.

The Sharpak Healthcare range of DISPOSApak Clinical Waste Containers are available in the following sizes: 2.5, 5.0 and 10 litre round containers. The 5.0 and 10.0 litre feature mastic seals in the lid mouldings.

The DISPOSApak container being UN type approved and can be used for the collection and disposal of clinical waste, EXCLUDING sharps, which are classified under the following European waste codes 18-01-02, 18-01-03, 18-01-04, 18-02-02, 18-02-03.

Drugs and pharmaceutical products are likely to be classified as special waste and as such should be returned to a responsible person at the hospital or community pharmacy, who will make the necessary arrangements for its safe disposal. You may wish to consider the Sharpak PHARMApak which has been specifically tested for this application.

The disposal of controlled drugs is regulated by the Misuse of Drugs Regulations 1973 and the NHS Executive has produced guidance on this topic.
