

Sharpak XL container

The Sharpak range of blue-top sharps containers are recommended for the segregation, collection and disposal of partially discharged sharps waste which are NOT contaminated with cytotoxic or cytostatic medicines.

The SHARPAK XL is a specialist container aimed at theatre sharps disposal, in particular, where minimal invasive surgery procedures involving the use of long disposable instruments. Its large aperture combined with its overall extended body length facilitates the disposal of the very longest and bulkiest endoscopy instruments, trocars, chest drains, pipettes and other sharps.

Sharpak sharps containers are approved to ISO 23907:2019 and tested and certified in accordance with the provisions of the United Nations recommendations on the Transportation of Dangerous Goods, Chapter 9, UN3291 Clinical Waste, Unspecified, NOS.

Sharpak sharps containers MUST only be disposed of by incineration.

Please note:- For disposal of sharps contaminated with cytotoxic or cytostatic medicines please refer to the data sheet for the Code PURPLE range of Sharpak HYDRI sharps containers.
